

Technical Data Sheet:

AQUARAS

odorless white spirit

Code: 0010	Ref.: ST10	Revision: 2	Date: 16/07/2010
------------	------------	-------------	------------------

Product Characteristics:

A blend of dearomatized aliphatic hydrocarbons (without aromatic hydrocarbons), which has a very tolerable and faint odor.

Formats: Drums 200 lt, Cans 25, 5, 1, 0.5 lt.

Technical Specifications:

CHARACTERISTIC	UM	VALUE	METHOD	TOLERANCE
Physical state		Liquid	Visual	//
Color		Colorless clear	Visual	//
Density at 20°C	Kg/dm ³	0.780	Met. Int. ISTR. 44	± 0.01
Water content	%	0.02	Met. Int. ISTR. 48	Maximum
Index of refraction at 20°C	IR	1.424	Met. Int. ISTR. 46	± 0.01

Applications and Useful Information:

It is highly suitable for diluting synthetic and oleo-synthetic enamels, waxes and polishes, fine arts products and for cleaning equipment.

The slow evaporation allows the paint to expand and spread perfectly, giving the artifact a perfect shine.

It can be used as a degreaser and cleaner of surfaces prior to painting, as a wax remover and silicone remover for surfaces including painted or plastic-coated surfaces, to remove oils, grease and tar.

Dilute the enamel to the desired viscosity for the chosen application. Thicker for brush or roller, more liquid for spray application. Approximately between 10 and 20 %, unless there are different indications printed on the paint can.

Without chlorinated or aromatics.

Not suitable for use in the car bodywork sector.

The above information is provided based on our theoretical and practical knowledge. The company, however, does not assume any liability as the conditions of use and application are not subject to the control of OV SpA.
