

Technical Data Sheet:

ECO CLEAN

Code: 0020	Ref.: ST20	Revision: 2	Date: 16/07/2010
------------	------------	-------------	------------------

Product Characteristics:

Blend of solvents particularly suitable for washing equipment used for applying paints in the car bodywork sector.

Formats: Drums 200 lt, Cans 25, 20 and 5 lt.

Technical specifications:

CHARACTERISTIC	UM	VALUE	METHOD	TOLERANCE
Physical state		Liquid	Visual	//
Color		Colorless clear	Visual	//
Flash point	°C	< 0 (closed cup)	Met. Int. ISTR. 53	//
Water content	%	0.3	Met. Int. ISTR. 48	Maximum
Density at 20°C	Kg/dm ³	0.765	Met. Int. ISTR. 44	± 0.020
Index of refraction at 20°C	IR	1.368	Met. Int. ISTR. 46	± 0.005

Applications and Useful Information:

Product used for washing guns and painting equipment in the car bodywork sector.

It is specific for removing all paints, both fresh and partially dried.

It has rapid evaporation and does not affect the gaskets or light alloys of equipment.

Because of its high solvent power, it is not recommended for use on painted, plastic, fiberglass or Plexiglas surfaces.

Without chlorinated or aromatics.

It can be applied by immersion or by using a brush or a rag.

The product complies with Italian Legislative Decree No. 161 of March 27, 2006 for the limitation of emissions of VOCs (volatile organic compounds) resulting from the use of bodywork products:

Product	Function	Limit value of ready-to-use product (g/l) - Legislative Decree No. 161/06
Preparation and cleaning products	Preparation product	850

The above information is provided based on our theoretical and practical knowledge. The company, however, does not assume any liability as the conditions of use and application are not subject to the control of OV SpA.
