

## ***Technical sheet:*** ***THINNER FOR EPOXY PANTS***

<b>Code:</b> 0012	<b>Sigla:</b> ST12	<b>Rev.:</b> 5	<b>Data:</b> 04/07/18
-------------------	--------------------	----------------	-----------------------

### **Type of product:**

Thinner for Epoxy paints.

Formulated with pure raw materials with a high percentage of low-and medium-boiling ketones.

**Packages:** Drums da 200 L, Cans 25, 5 e 1 L.

### **Technical specifications of the product:**

CHARACTERISTIC	UM	VALUE	METHOD	TOLLERANCE
Physical state	Liquid		Visual	//
Color	Colourless limpid		Visual	//
Density at 20°C	Kg/dm <sup>3</sup>	0,870	Met. Int. ISTR. 44	± 0,010
Water content	%	0.3	Met. Int. ISTR. 48	Maximum
Flash point	°C	< 0	Met. Int. ISTR. 53	Typical

### **Uses/Application:**

Has a very high solvent power, which is essential to dilute the epoxy paints, polyamine epoxy and epoxy polyamines, both air or oven drying (medium heat). The product is decisive for the perfect extension and catalysis of the paint, emphasizing the gloss characteristics of the same.

Thinner for Epoxy Paints 123 is also great for cleaning dirty equipment of fresh or moderately dry paints.

Dilute the paint from the advice given by the manufacturer or at least until you get the right viscosity for the application of your choice. Mix thoroughly.

For jobs degreasing, washing and cleaning in car body refer to the products in accordance with the Legislative Decree 27 March 2006 161.
