

Technical Data Sheet:

Water-based Degreaser 2200

Code: 0062 | Ref.: ST62 | Revision: 1 | Date: 16/07/2010

Product Characteristics:

Water-based product and non-ionic surfactants.

Professional, water-dilutable, concentrated degreaser specifically for washing car engines, motorcycles, boats, and any other type.

It perfectly removes grease, oil and dirt that retains carbon residues, graphites and other inert materials.

It does not affect light alloys, plastics, rubber, or painted parts. It does not ruin seals even after repeated use.

Formats: Plastic bottle 750 ml with spray

Plastic cans 5 lt.; Plastic jerry cans 25 lt.

Technical specifications:

CHARACTERISTIC	UM	VALUE	METHOD	TOLERANCE
Physical state	Liquid		Visual	//
Color	Quinoline yellow		Visual	//
Flash point	Non-flammable		Met. Int. ISTR. 53	//
Density at 20°C	Kg/dm	0.995	Met. Int. ISTR. 44	± 0.005
Index of refraction at 20°C	IR	1.353	Met. Int. ISTR. 46	± 0.005

Applications and Useful Information:

Spray the product according to the recommended concentrations on the surface to be cleaned. Wait about 10 minutes for the product to act, then wash with a jet of water under pressure. If necessary, repeat the operation in the most stubborn dirty spots.

Concentrations:

Pure: For the most stubborn dirt.

1 to 10 parts with water: in all other cases, depending on the thickness and heaviness of the dirt.

The above information is provided based on our theoretical and practical knowledge. The company, however, does not assume any liability as the conditions of use and application are not subject to the control of OV SpA.
