

## Technical Data Sheet:

# RED QUOD

red straw oil

Code: 0031	Ref.: ST31	Revision: 1	Date: 17/06/2009
------------	------------	-------------	------------------

### Product Characteristics:

Blend of denatured synthetic oils (alkyl benzoles) with an extremely faint odor, burgundy red color.

**Formats:** Cans of 25, 5, 1 and 0.5 lt

### Technical Specifications:

CHARACTERISTIC	METHOD	UM	VALUE
Physical state	Liquid, red		
Color	ASTM D 1500		1.5
Flash point	ASTM D 93	°C	160
Water content	ASTM D 1533	p.p.m.	100
Density at 20°C	ASTM D 4052	Kg/l	0893
Viscosity at 50°C	ASTM D 445	cSt	12.7
Index of refraction	ASTM D 1218		1494

### Applications and Useful Information:

It brightens and nourishes furniture varnish, protects virgin wood, and is used as an impregnating agent for porous floors and concrete artifacts. It can also be used in interiors, because it is a synthetic oil and even in the presence of mold and bacteria there is no risk of bad odors caused by the rancidity of fatty acids in vegetable products.

It is particularly suitable for polishing anodized aluminum window frames, reviving and restoring plastic shutters as well as all plastic parts of boats, mopeds, etc., discolored by the sun.

It has a moderately coloring function, making it more suitable for dark or reddish colored surfaces
